New Consignment Submission Rules for 2018 and beyond

We have implemented new consignment submission rules that take effect immediately. As follows:

You must contact us to let us know exactly what you are submitting – before you send anything. We no longer accept indiscriminate, non-documented items. In other words, we must know in advance what you are sending us. Consignment submissions must have an intrinsic value of *at least* **\$ 500.00** That's a cumulative value of \$ 500.00

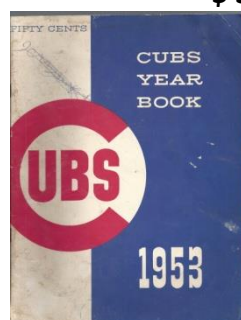

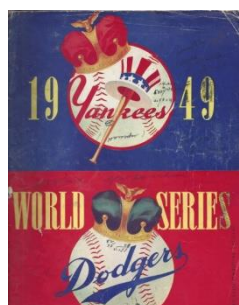

We do not accept reproductions, reprints, or other material of a questionable manner. COA's are preferred for autographed material. These new rules only make things better for all concerned.
